ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

The date of the dedication of St. Paul's parish house, Burlington, has finally been set for Tuesday, December 27.

The Howe Scale Co., Rutland, has just erected two two-story brick and stone buildings to accommodate its increased business.

A petition in bankruptcy was filed yesterday by Martin Kennedy, a laborer of Rutland. He has liabilities of \$412.50 and assets of \$87, \$10 being claimed exempt.

The regular monthly report of Mr. Jones, Central Vermont draw bridge tender at Rouses Point, N. Y., shows that the level of Lake Champlain was lowered ten inches during the month of November.

The Randolph Inn, which was closed recently on account of a diphtheria quarantine, has again opened for business. The twenty persons who were held in quarantine were released Friday night by the Randolph health officer.

Miss Clara Viola Trow, who was married to Lester Morton Holt in the Metropolitan Presbyterian church at Washington, D. C., last week Wednesday night, is the daughter of the late G. W. Trow of Newport, and a niece of ex-Gov. G. W. Hendee, of Morrisville.

The agricultural department of the University of Vermont received a gold medal at the St. Louis exposition for its exhibit of methods of maple sugar making and experimental work in the sugar bush. A lower award was on charts showing the composition of silage and the changes in butter brought about by variation in feeding.

The Vail plant in Manchester has been sold to Massachusetts parties who propose to make a wood turning establishment of it, which will employ a goodly number of hands. They also propose to locate a mill on their wood lot on the mountain for sawing the lumber before it is brought down. The parties are expected this week to make arrangements for beginning the work.

Parties from Granville, N. Y., are making flying visits into Dorset Saturday nights and Sundays with so-called whiskey to sell. Almost two hundred pint bottles came in last week, according to report. The uncertain state of the laws at present does not warrant the authorities taking hold of the matter to stop it until the legislature adjourns sine die, and then not officially until its doings are published and distributed.

Preparations are in progress for the annual meeting of Mount Sinai Temple, Nobles of the Mystic Shrine, which will be held in Montpelier Friday evening, December 9. It is expected that four hundred or more nobles will be present and because of this banquet will be held at the Tavillon and Montpelier hotels at the same time. This banquet would be held in Armory hall were it not for the fact that this place is needed for the floor work.

WILLISTON BARN BURNED.

Two Structures Destroyed With All Their Contents—Partly Insured.

Essex Junction, Dec. 6.—Fire last evening totally destroyed the two barns on the farm belonging to George R. Willey, located on the west side of the river on the Williston road, together with their contents, consisting of about 35 tons of hay, 10 tons of straw and farming utensils. The fire was first discovered at about 8:30 o'clock, and there being no water available for protection the building burned fiercely in the high wind. The loss was total. The insurance was \$900 on buildings and contents which will partially cover the loss.

The cause of the fire is unknown. Mr. Willey had within a few days lost by theft a flock of poultry from these premises and it is thought that perhaps a return of the thieves for further plunder may account for it.

POULTRY EXHIBIT DEC. 20-22.

To Be Given by Addison County Association at Bristol.

Bristol, Dec. 6.—The annual exhibit of the Addison County Poultry Association will be held in Holley hall, Bristol, December 20-22. All entries will be closed December 15.

Premiums are offered on poultry, turkeys, geese, ducks, guinea fow, pheasants, pigeons, Belgian hares, rabbits and cats.

Orange County Court.

Chelsea, Dec. 6.—Orange county court was called to order at 10 o'clock this morning. Judge Seneca Haselton of Burlington presiding. Prayer was offered by the Rev. L. M. Moody and the remainder of the session given to calling the docket, trial by jury and several state cases not yet reported by the state's attorney. Nine jurors were excused on account of sickness and for other reasons. The prospect is for a longer term than usual.

Master and Servant.

The following figures are very interesting by way of comparison only: The net public debt of the United States is \$500,000,000 less than the total capitalization of the United States Steel Corporation figured at par. Think it over!—From a Stock Market Bulletin.

The era of the North's attempting to impose its ideas of the social and political equality of all men irrespective of character or attainments on the South has come to an end with confession of failure. That this happens to be contemporary with a reaction of a similar kind over the world does not alter the fact or make it less instructive. The South had a doctrinaire theory of the constitution of the state which went down at Appomattox. The North had a doctrinaire theory of the suffrage, which has gone down to defeat in recent decisions of the Federal Supreme Court and under the attack of the facts of history.—The Congregationalist.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. In stamps for sample to The Herpicide Co., Detroit, Mich.

Wants Cheewin Taught.

Sir William McEwen, a professor of Glasgow university, is a late authority for the view that "the quick lunch" is a health destroyer, says the Chicago Chronicle. In an address to the Channing Cross Medical school of London he said that people seemed to set as though "food should be thrown into the stomach as a sandwich into the pocket." He complains that "mastication is not taught in schools" and says it is time that "certificates should be given in schools for sound digestion. Instead of doing that we appoint royal commissions to inquire into the causes of physical deterioration of the race."

Korean Women.

In no country is the life of women more pathetic than in Korea, where it might be termed imprisonment with hard labor from the age of seven until death. Little girls are secluded from the time of their betrothal. At an age varying from ten to sixteen years they are married to men they have never seen and go away to take their places as menials.

Low Water at Milton Pulp Mill.

Milton, Dec. 6.—Low water in the La-moille river is causing a shut down of about half the machinery at the pulp mill and a laying off of the men employed.

The Grateful Hen.

Hens are not noted for their gratitude, but it has been proved time and again that if properly housed and fed they will return a handsome profit to the poultryman. Mrs. H. F. Avery, Coopers Mills, Me., tells how she makes money on poultry. "I have used 'Page's Perfect Poultry Food' for two or three years and sold some to my friends. They like it very much as an egg producer. I should not know how to get along without it, for my hens pay it all back and give me a good profit besides, and I can conscientiously recommend it to all who want poultry to pay."

Warning in Relation to Fires.

The public are hereby notified not to ring in the fire alarm on the occasion of a small fire or the burning out of a chimney, but are requested to call up the fire station at the nearest telephone connection and notify the fire department by this means. By order of the City Council.

JAMES MACKAY, City Clerk.
